## OUR FINEST HOUR

On our final day, we would like to congratulate you all for participating in BHMUN'19! We've have seen countless numbers of people make new friends, read funny gossip, work on resolutions, bring order to their committees, cause moments of crisis, solve world problems hand-in-hand and just plainly have fun.

As BHMUN'19 is coming to an end, we would like to make this issue of our newspaper more enjoyable for you...

# CAUGHT IN THE ACT - BEST OF BHMUN'19

## THE MEMEMASTER HAS BEEN REVEALED!

The delegate who has been gossiping with memes has been revealed. The delegate of China from ECOFIN, Atahan İbrahimoglu, is very skilled at generating visual humor for our conference. We took this opportunity to interview him, bringing you the facts behind the mememaster of BHMUN'19.

### **Your memes so far have impressed many. What do you have to say about your creations and your reputation?**

Well, the reason for the memes is that I'm speaking too much in my committee. Since there are no other delegates who are trying to solve our issues and aren't cooperating, I, the delegate of China, had to give 12 motions in one session. That has been the reason for me making memes; boredom. I didn't anticipate that I would become the "mememaster" since our aim was to solve issues and the memes were just a byproduct of my boredom.

### **Can you tell us your best moment in BHMUN'19?**

Eye contact with my chairs because everytime I did something funny we had eye contact.

## PRESS MEMBER MANAGES TO SURVIVE WITH 1GB SD CARD

Our very own Yankı Özel from the press team has been able to survive this conference with only a 1GB SD card. He has spent the majority of his time photographing people, while only being able to store 70 photos

### **How have you been able to survive the past three days with only a 1GB SD card?**

It's has been difficult but I managed to survive by constantly emptying my SD card into Ata's computer. I had to do that quite often and it was tiring. Also the uploading speed was very slow so that slowed me down and it was frustrating.

### **Have you been able to take good photos even with this challenge?**

An SD card with a small memory doesn't impact the quality of the photos I take. But I'll let the viewers decide if they are good or not.

## INTERVIEW WITH OUR SPOTLIGHT - CEM DOĞAN

### Did you enjoy the social event? What happened?

The social event was interesting, I had a really nice time, I got to be free and myself, I danced a lot. Me and Ege lost ourselves a little and danced really crazily, which was super fun.

### Who was best dancer?

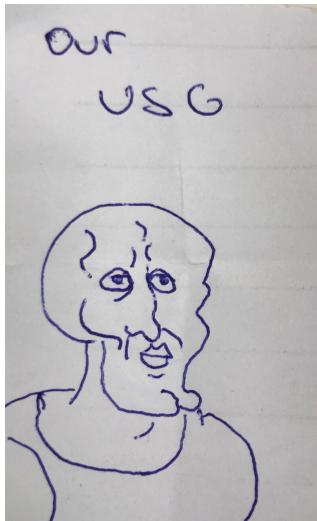

Definitely Ege Korkmaz, he's just so fun to be around with his psychedelic moves. He acts really crazy and it becomes super fun to hang out with him.

### What was your best moment in BHMUN'19?

The committee sessions and gossip was all great but the spotlight at the social event was the best, everyone was just happy to be there.
